Dear Sir/Madam

This is to inform you that 2018 model of eSS will continue for the year 2019 for exiting members and existing resources considered for central funding under ESS. As you are aware that the renewal of subscription to e-resources is due from January 2019. Please note the Institutes that were getting access to e-Resources through central funding in the year 2018 would continue to get access to same resources during the year 2019. It may kindly further be noted that:

1. No additional resources will be considered for 2019 to existing members.
2. No new institute will be considered for access to e-resources in the year 2019.
3. Negotiated rates of e-resources finalized for 2019 can be viewed on eSS portal. Rates for other resources will be updated after approval of competent authority.
4. The rates for IEEE, Euromonitor and ProQuest could not be finalized. These three publishers have declined to participate in eSS Negotiation meetings, they want to work directly with institute for renewals. The members of the negotiation committee recommended MHRD to send appropriate advisory to institutes in this regard.
5. The individual member Institute can view the list of e-resources considered for central funding for the year 2019 from eSS portal.

The eSS would process the renewal of subscription to e-resources considered for central funding for the year 2019 after release of funds from MHRD. The member institutes would start renewal of subscriptions for other than centrally funded resources from own funds for the year 2019 on the rates negotiated by negotiation committee of eSS. The institute may also take their own appropriate decision on renewal of e-resources whose rates could not be finalized during the negotiation committee meetings.

Feel free to contact us for any further assistance.

With regards,  
Ashok Kumar Rai

J-Gate is certainly the single discovery platform to address your concern. **Just One Thing to DO** for enabling all *students/faculties/researchers* to access your library subscribed journals effortlessly from a single discovery platform:

#### 1. Integrate "Journal Discovery Search Box" in Your Library Website:

- Users can type the *Keywords* in the search box and they would be directed to the search results page in J-Gate in no time.
- Visibility of Library Website would increase and ease of accessing all subscribed journals would be *unprecedented*.
